

84-FE420-100 Fisheye Camera, 4MP 360 Degree View

Introduction

The 84-FE420-100 is a fisheye camera that allows you to monitor all angles of a location using just one camera. The distorted hemispherical image of the fisheye camera will be converted into the conventional rectilinear projection. Without installing any software, you can watch live view and utilize functions such as motion detection, privacy mask, and alert notification through the web interface using a browser. In addition, the 84-FE420-100 seamlessly integrates with the GV System, providing advanced monitoring and video management features. This fisheye IP Camera is designed to be mounted on the ceiling, wall or ground. There are two ways to mount the 84-FE420-100 on the ceiling, Hard ceiling mount and In ceiling mount. The in ceiling mount allows the 84-FE420-100 to be mounted into the ceiling, revealing a small portion of the camera.
