

## CT-COM240

### Rack Mountable 6x24 Multiswitch With Integrated B-Band Technology

- 6 Inputs to support DIRECTV Ka/Ku satellite positions 99°,101°,103°,110°, 119°, 72.5° & 95°
- 24 Independent outputs
- 19" Rack mountable
- Occupies 2 rack spaces (3.5")
- Available with or without integrated B-Band technology

## CT-COM160

### Rack Mountable 6x16 Multiswitch With Integrated B-Band Technology

- 6 Inputs to support DIRECTV Ka/Ku satellite positions 99°,101°,103°,110°, 119°, 72.5° & 95°
- 16 Independent outputs
- 19" Rack mountable
- Occupies 2 rack spaces (3.5")
- Available with or without integrated B-Band technology

## CT-COM800

### Rack Mountable 6x8 Multiswitch With Integrated B-Band Technology

- 6 Inputs to support DIRECTV Ka/Ku satellite positions 99°,101°,103°,110°, 119°, 72.5° & 95°
- 8 Independent outputs
- 19" Rack mountable
- Occupies 1 rack space (1.75")
- Available with or without integrated B-Band technology

## CTMS-616RKPS B-BAND

### Rack Mountable 6x16 Multiswitch With Integrated B-Band Technology

- 6 Inputs to support DIRECTV Ka/Ku satellite positions 99°,101°,103°,110°, 119°, 72.5° & 95°
- 16 Independent outputs
- 19" Rack mountable
- Occupies 2 rack spaces (3.5")
- Available with or without integrated B-Band technology

## RV042 Cisco Virtual Private Network (VPN) Four Port Router

### Features:

- Perfect for providing remote access and control of a Cabletronix Digital Video Management System (DVMS)
- Allows for remote configuration of the DVMS and Thomson COM1000 blade system for HDTV satellite distribution
- Built in 4 port 10/100 ethernet switch, Dual WAN connections
