

ST-6009/IRODVA28
Outdoor 2.8 - 11mm Vari Focal
Armor IR Dome Camera

Features:

- 1/3" Sony High Res. CCD
- 550 TV lines of resolution
- 0 Lux
- Built-in 2.8-11mm varifocal lens
(External adjustable Zoom and Focus)
- 36pcs IR LED
- IR range 115ft - 145ft
- Weatherproof housing with IP55 Standard

Description:

ST-6009/IRODVA28 features a Sony CCD 550 line CCD sensor. It provides excellent color reproduction, and remarkable sensitivity in zero lux environments. The camera's 36-LED infrared illuminators can easily distinguish objects at a distance of 100 feet and beyond. This heavy duty armor dome camera also features an multi-positional mount option making 90° wall mounting a breeze. The camera includes a 2.8-11mm varifocal lens, taking the guesswork out of lens selection. The external adjustments of the lens provides for a very quick installation.

The aluminum cast structure and IP 55 weatherproof rated housing protects the camera during rain, sleet, and snow which ensures extremely effective surveillance. If tampering or vandalism is a concern, then this is the camera to go with. The rugged durable camera housing is fully tamper and vandal-proof.

Specifications:

Image Sensor	1/3" Sony High Res. CCD
